THE BRITISH CORPORATION REGISTER OF SHIPPING AND AIRCRAFT

REGISTRO ITALIANO

AND

THE IMPERIAL JAPANESE MARINE CORPORATION (Teikoku Kaiji Kyokai)

The Board of Managers of the American Bureau of Shipping have entered into an agreement and have made arrangements with the Committees of the British Corporation Register of Shipping and Aircraft, Registro Italiano and Imperial Japanese Marine Corporation, which provide for the mutual acceptance by the Societies of the Classification and Survey of Vessels constructed under Rules and Conditions which are equally effective. Owners are also enabled to secure and maintain more than one Classification for such vessels at a small addition to the cost of a single Classification. The organization of the Societies in the United Kingdom, Italy and Japan is thus rendered available for Vessels which are classed or are intended to be classed with the American Bureau of Shipping; the organization of this Society in the United States is available for those Vessels which are classed or are intended to be classed with the British Corporation Register of Shipping and Aircraft, Registro Italiano or Imperial Japanese Marine Corporation. Builders and Owners are referred to the British Board of Trade, the Italian Government Regulations, and the Japanese Government Regulations for certain requirements in British, Italian and Japanese ships, which are in excess of Classification requirements.

RECORD
OF
AMERICAN AND FOREIGN
SHIPPING.

THIS RECORD

OF

AMERICAN AND FOREIGN SHIPPING

IS ISSUED

TO SUBSCRIBERS ONLY

"The Bureau exercises extreme care in all matters dealt with, but it is understood and agreed that the Bureau is not, under any circumstances whatever, to be held responsible in any respect for any inaccuracy in any report, certificate or other document issued by the Bureau, its Committees, or its Surveyors, or in any entry in the Record or other publication of the Bureau, or for any error of judgment, default, negligence or want of care of its Committees, Officers, Surveyors or Agents of the Bureau."

No vessels are Classed except such as have been submitted to survey according to the prescribed rules, and the Class approved by the Committee at New York.

LAKE VESSELS

NOTE.—Vessels on the inland waters of the United States, often designated as the Great Lakes, are not subject to the action of the Teredo (marine ship worm) and do not foul or accumulate marine growth; and it is therefore unnecessary to copper or dock them for examination unless required by accident or other special reason.

SUBMARINE SIGNALS

The Bureau, recognizing the value of this apparatus for the preservation of life and property on the sea, will enter in the second column of the Record of Vessels the abbreviation "sub. sig.," denoting that such vessel is equipped with Submarine Signal Apparatus.

NOTICE

The Classification Committee of the American Bureau of Shipping has directed that:

In the classification of vessels built of wood, the assignment of a term of years and the "Half Time" surveys will be discontinued on and after January 1st, 1919.

After January 1st, 1919, wood vessels will be classed the same as steel vessels, namely, $\clubsuit A1^E$; and Periodical Surveys will be held every four years instead of "Half Time" surveys as heretofore. Special surveys will be held as circumstances may require.

In the case, however, of wood vessels which were originally classed $\clubsuit A1^E$ and have lapsed from conditions warranting the continuance of Highest Class, a qualified classification of $\clubsuit A1\frac{1}{2}$ will be assigned.

Subscribers are requested to note that:

Commencing January 1, 1923, the term of years heretofore in use with the symbol of class will hereafter be omitted.

The special surveys must be made every four years unless a shorter period is specified.

After November 5th, 1919, vessels intended for a particular trade, which have been built to scantlings especially arranged and approved by the Committee for that trade, will be distinguished in the Bureau's Record Book by the symbol $\clubsuit A1$ followed by certain words indicating the necessary limitations of trade as follows:

- (a) GREAT COASTWISE—indicating that the vessel is approved for the navigation of all the coastal waters of North and South America, with the exception of Cape Horn and the Straits of Magellan.
- (b) COASTWISE AND WEST INDIES—indicating that the vessel is approved for the navigation of the Eastern coastal waters of North America, the West Indies, and the north coast of South America not east of Trinidad, including the Gulf of Mexico and the Caribbean Sea.
- (c) GREAT LAKES SERVICE—indicating that the vessel is approved for the unlimited navigation of the Great Lakes and their tributaries to the eastern limits of fresh water.
- (d) Vessels which do not qualify under any of the foregoing limitations shall be given a Special Rating by the Bureau to be determined by the Classification Committee, indicating the particular trades or purposes or the geographical limits for which the vessels are intended. For example, "River Service," "Fishing Service," "Bays and Sounds," "Dredging," "New York to Boston," etc.
